6. Establish the relevant investment horizon for which the Fund assets will be managed.

In general, the purpose of this statement is to outline a philosophy and attitude, which will guide the investment management of the assets toward the desired results. It is intended to be sufficiently specific to be meaningful, yet flexible enough to be practical.

RESPONSIBILITY OF THE INVESTMENT CONSULTANT(S)

The Investment Consultant's role is that of a non-discretionary advisor to the Investment Committee of the CSLA Foundation. Investment advice concerning the investment management of Fund assets will be offered by the Investment Consultant, and will be consistent with the investment objectives, policies, guidelines and constraints as established in this statement. Specific responsibilities of the Investment Consultant include:

1. Assisting in the periodic review of investment policy, including asset allocation, rebalancing and benchmark analysis.
2. Conducting investment manager searches when requested by the Investment Committee.

GENERAL INVESTMENT PRINCIPLES

1. Investments shall be made solely in the interest of the beneficiaries of the Fund.
2. The Fund shall be invested with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in like capacity and familiar with such matters would use in the investment of a fund of like character and with like aims.
3. Investment of the Fund shall be so diversified as to minimize the risk of large losses.
4. The Investment Committee may employ one or more fixed income investment managers of varying styles and philosophies to attain the Fund's objectives.
5. The Investment Committee may choose to utilize the Investment Consultant to make direct purchases of fixed income investment as outlined in this policy statement.
6. Cash is to be employed productively at all times, by investment in short-term cash equivalents to provide safety, liquidity, and return.

7. The Investment Committee recognizes the Uniform Management of Institutional Funds Act (UMIFA) of 1972 and will adhere to the guidelines of said Act.

INVESTMENT MANAGEMENT POLICY

1. Preservation of Capital - Consistent with their respective investment styles and philosophies, investment managers should make reasonable efforts to preserve capital, understanding that losses may occur in individual securities.

2. Risk Aversion - Understanding that risk is present in all types of securities and investment styles, the Investment Committee recognizes that some risk is necessary to produce long-term investment results that are sufficient to meet the Fund's objectives. However, the investment managers are to make reasonable efforts to control risk, and will be evaluated regularly to ensure that the risk assumed is commensurate with the given investment style and objectives.

3. Adherence to Investment Discipline - Investment managers are expected to adhere to the investment management styles for which they were hired. Managers will be evaluated regularly for adherence to investment discipline.

GOAL OF CSLA FOUNDATION NON-ENDOWMENT FUND

The Investment Committee feels that grants to be made in the future are as important as grants made today. This is consistent with the philosophy that this Endowment is to exist in perpetuity, and therefore, should provide for grant making in perpetuity. The Endowment’s specific investment objectives will be established later in this document.

CASH FLOW OBJECTIVES

The following guidelines are set forth to facilitate the management of both contributions to and distributions from the Non-Endowment Fund.

CONTRIBUTIONS

Contributions to the Non-Endowment Fund are expected from the following sources:

1. Five percent (5%) of unrestricted or temporarily restricted gifts of more than $10,000.
2. Five percent (5%) of permanently restricted (endowment) gifts.
3. One percent (1%) of earnings (also known as Administrative Assessment) on the Endowment Fund annually at the discretion of the Investment Committee.
4. Interest and dividends earned on the Non-Endowment Fund at the discretion of the Investment Committee.
DISTRIBUTIONS

Distributions from the Non-Endowment Fund are expected as follows:

1. Scholarship Distributions made year round.
2. Capital Expenditures – special distributions will be made from the Non-Endowment Fund to support specific capital projects as needed.
3. In the event that market losses decrease the market value of the fund below the cost basis, no distribution will be made to the operating budget for that year except at the discretion of the Board.
4. Other distributions as restricted and directed by the donor.

INVESTMENT OBJECTIVES

In order to meet its needs, the investment strategy of the CSLA Foundation Non-Endowment is to emphasize the generation of current investment income; that is, the aggregate return from dividend and interest income only.

Specifically, the primary objective in the investment management of Fund assets shall be:

Preservation of Capital – To minimize the probability of loss of principal over the investment horizon. Emphasis is placed on minimizing return volatility rather than maximizing return.

The secondary objectives in the investment management of Fund assets shall be:

Liquidity – To ensure the ability to meet all expected or unexpected cash flow needs by investing in securities which can be sold readily and efficiently.

SPECIFIC INVESTMENT GOALS

Over the investment horizon established in this statement, it is the goal of the aggregate Fund assets to exceed:

The blended rate of return of 75% Lehman Bros Aggregate Bond Index plus 25% of the 3-Month C.D. Index

The investment goals above are the objectives of the aggregate Fund, and are not meant to be imposed on each investment.

INVESTMENT MANAGER GOALS

The goal of each investment manager, over the investment horizon, shall be to:
1. Meet or exceed the market index, or blended market index, selected and agreed upon by the Investment Committee that most closely corresponds to the style of investment management.

2. Display an overall level of risk in the portfolio that is consistent with the risk associated with the benchmark specified above. Risk will be measured by the standard deviation of quarterly returns.

**DEFINITION OF RISK**

The Investment Committee realizes that there are many ways to define risk. It believes that any person or organization involved in the process of managing the CSLA Foundation Non-Endowment assets understands how it defines risk so that the assets are managed in a manner consistent with the Fund's objectives and investment strategy as designed in this statement of investment policy. The Investment Committee defines risk as (in prioritized order):

1) Probability of not meeting the Fund’s liabilities or cash flow requirements.
2) Probability of losing money over the investment time horizon of three years.

**RISK TOLERANCE**

The worst aggregate return that the Investment Committee is willing to accept on the fixed income investments over any single twelve-month period is 0% to –3%. The Investment Committee is unwilling to tolerate any loss on the cash equivalent investments over any single twelve-month period. The Investment Committee has also agreed that they could not tolerate any loss to the entire investment portfolio over the investment time horizon of three years.

The Investment Committee has determined the risk profile of the Non-Endowment Assets to be conservative. They are unwilling to accept short-term fluctuations in their portfolio in order to achieve higher returns over a longer-term time horizon.

**LIQUIDITY**

To minimize the possibility of a loss occasioned by the sale of a security forced by the need to meet a required payment, the Investment Committee will periodically provide investment consultants with an estimate of expected net cash flow.

To maintain the ability to deal with unplanned cash requirements that might arise, the Investment Committee requires that a minimum of $400,000 of Fund assets shall be maintained in cash or cash equivalents.

**MARKETABILITY OF ASSETS**

The Investment Committee requires that all of Fund assets be invested in liquid securities, defined as securities that can be transacted quickly and efficiently for the Fund, with minimal impact on market price.

The Investment Committee feels that many derivative securities are relatively new and therefore have not been observed over multiple economic cycles. Due to this uncertainty, the Investment Committee will take a conservative posture on derivative securities in order to maintain its risk adverse nature. Since it is anticipated that new derivative products will be created each year, it is not the intention of this document to list specific derivatives that are prohibited from investment, rather it will form a general policy on derivatives. **Unless a specific type of derivative security is allowed in this document, the Investment Manager(s) and/or Investment Consultant must seek permission from the Investment Committee to include derivative investments in the Fund's portfolio. The Investment Committee intends to evaluate the portfolio(s) over a three year period, but reserves the right to terminate an investment manager for any reason including the following:
1. Investment performance, which is significantly less than anticipated given the discipline employed and the risk parameters established, or unacceptable justification of poor results.

Investment managers shall be reviewed regularly regarding performance, personnel, strategy, research capabilities, organizational and business matters, and other qualitative factors that may impact their ability to achieve the desired investment results.
